

Victorian bushfire assistance – Ridley Corporation

The bush fires of Saturday the 7th February have been devastating on individuals, communities, livestock and native animals.

As a result of the large loss of pasture and stockfeed that the farming community experienced, Ridley partnered with the Victorian Farmers Federation (VFF) to donate in excess of \$100,000 worth of stockfeed.

Other suppliers within the industry partnered with Ridley by providing donations of grain and freight all of which have been used directly to manufacture the feed and transport to the much needed areas. We would like to thank and acknowledge our partners Elders Grains, ABB, Brodie Grain, Martin Transport and Downs Transport.

With the support of our partners the feed donation will be in excess of 500 tonnes. This contribution will greatly assist the farming community and animal welfare groups in the fire affected areas.
